## SKILLS

React	Node.js
JavaScript	Mongo DB
Wordpress	Jasmine/Enzyme
HTML CSS	Cypress
UX/UI principles	Git/GitHub

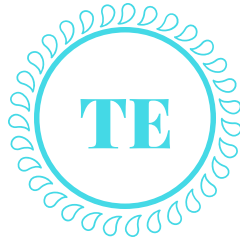

## EXPERIENCE

- **Adobe - Analytics, Software Engineering Intern**  
JUN 2018 - PRESENT  
Using React, Cypress, & Git, I collaborated with the Product, UX, and Web UI teams to develop and implement a consistent save experience across modules in Adobe's Workspace product.
- **V School - Full Stack Development**  
FEB 2018 - MAY 2018 ADOBE DIGITAL ACADEMY SCHOLAR  
Studied MERN stack: [My Portfolio](#)
- **Slopes Design, Web Designer/Developer - Owner**  
MAY 2015 - JUNE 2018  
Created responsive websites using WordPress, JavaScript, and HTML/CSS.
- **Workfront, Executive Assistant to CTO**  
JUN 2011 - JUL 2014  
Supported the CTO, development leadership, and tech team. Learned how Product, Design, and Development teams work together to build a SaaS product.

## EDUCATION

- **V School - Adobe Digital Academy Scholar**  
FEB 2018 - MAY 2018  
Certificate in Full Stack Web Development
- **Brigham Young University**  
AUG 2004 - APR 2006  
Bachelor of Science in Geography

## EXPERIENCE

### ADOBE | JUN 2018 - PRESENT

SOFTWARE ENGINEERING INTERN - ADOBE ANALYTICS

Coordinated with the UX and Web UI teams to resolve inconsistencies in the save behavior of various modules in the Workspace product. Along the way I squashed a few layout and localization bugs, even cleaning up a few other bugs uncovered while working on the project.

### V SCHOOL | FEB-MAY 2018

ADOBE DIGITAL ACADEMY SCHOLAR

I learned the MERN stack (MongoDB, Express, React, Node.js) while in this intense, immersive coding program. Below are some of the projects I've created with the tools I learned at V School.

**Book Club App** - Designed, developed and deployed a full stack application.

**Tribute to Art App** - Designed, developed and deployed a Front End app that uses the Artsy API, React and Redux.

**Baby Name Generator** - A vanilla JavaScript application that generates a random name from three large data sets.

### WORKFRONT | JUN 2011 - AUG 2014

EXECUTIVE ASSISTANT - CTO

Supported the CTO and Development leadership in coordinating development efforts with the UX and Product teams. Learned about Agile development, scrum teams and best practices.

## TECH LANGUAGES / SKILLS

- React
- JavaScript
- Node.js
- Express
- MongoDB/ Mongoose
- Git/GitHub
- HTML
- CSS
- UX/UI principles
- Jasmine/Cypress/Enzyme

## EDUCATION

FULL STACK WEB DEVELOPMENT  
V SCHOOL | MAY 2018

BACHELOR OF SCIENCE - GEOGRAPHY  
BYU | 2006

## ME IN 30 SECONDS

I am a UX/UI minded, full-stack software engineer seeking an entry level position. I look forward to bringing my collaborative personality, professional experience, and drive for excellence to work for you.
